✦ Professional Summary

Computer Science graduate with hands-on experience in Java, Spring Boot, REST APIs, and SQL. Built production-ready projects including IRCTC backend API and a microservices based Quiz App with OAuth2 and API Gateway. Internship at Xscientist: automated news data scraping and insights. Strong problem-solving mindset; eager to contribute as a Backend/Java Developer.

🔧 Skills

- **Java and Core Java:** Proficient in Java programming, with a strong understanding of the core APIs, OOPS and libraries.
- **Spring MVC and Spring Boot:** Proficient in developing web and enterprise applications using Spring MVC, Spring Boot.
- **Hibernate & JPA :** Hands-on experience with Hibernate & JPA for Object-Relational Mapping (ORM) and database handling.
- **SQL :** Strong knowledge of SQL for designing, implementing, and managing database systems. Experienced in MySQL Workbench for efficient database operations.
- **REST APIs:** Proficient in creating and consuming RESTful APIs, ensuring effective server-side communication.
- **JSON:** Skilled in using JSON for storing and exchanging data between the server and client.
- **Angular:** Design single page application to improve user experience.
- **Postman:** Proficient in using Postman for API development, testing, and management.
- **IntelliJ, Eclipse:** Proficient in using various IDEs, including Visual Studio, IntelliJ, and Eclipse, NetBeans for effective coding, debugging, and testing.
- **Problem-solving:** Strong problem-solving skills, with the ability to troubleshoot and resolve application issues

💻 Technical Experience

Backend & Data Science Intern – Xscientist (Sep 2023 – Feb 2024)

- Automated web Scrapping for various news website to extract news review using Python
- Extracted meaningful insights on Scrapping data.

📁 Projects

1. IRCTC App – Spring Boot, REST API, MySQL, Angular

- Built admin and user modules with secure JWT authentication.
- Designed database models and implemented full CRUD operations.
- Handle exception, Logging, and Applied service layers.
- Integrated Swagger API docs → streamlined frontend collaboration.
- Designed Single Page Application, UI using PrimeNg

2.Quiz App – Microservices & AI Integration (Spring Boot, MySQL, MongoDB, PostgreSQL)

- Designed microservices for Quiz, Category, and Question Generation modules
- Implemented API Gateway, Config Server, Discovery Service.
- Secured APIs with OAuth 2.0 (Google , Github Login)
- enabled cross-database communication using RestTemplate & WebClient.
- Implement Resilience pattern like retry, circuit breaker, RateLimiter pattern
- Use Event Driven Communication using Rabbitmq and Kafka

3. Product Sentiment Analysis – Jupyter, MySQL

- Scraped 1,000+ e-commerce product reviews; performed sentiment classification
- Stored and visualized results for business insights dashboards.

Education :-

B.Tech – Computer Science & Engineering

Chh. Shahu College of Engineering, DBATU Lonare University CGPA: 6.5

HSC (Science) – 79% Saint Janardhan Swami College | 2021

SSC - 75% Saint Meera School | 2019

Certifications

- NPTEL: Programming in Java, DBMS, C
- Recognized as NPTEL Discipline Star.
